Comments
i didnt go to Ta hours
Did not have any interaction with this TA.
I didn't have much interaction with any of the TAs
Willing to work with me outside of office hours - thank you so much!
I never interacted with him.
Great Friday review sessions!
Never attended TA sessions
I've never been to the office hours of this TA because my schedule only allowed me to go to the professor's office hours and I've got adequate aids from him.
David is the man.
I never went to TA hours, so I can't really answer for these
He is so funny (although I don't think he knows it)
He explains things really well, I just wished the subsection was something I heard about at the beginning of the course
I never interacted with the TAs
David's Friday subsection was very helpful - great explanations that built off of class lectures but helped clarify things in a slightly different way.
In general, having the extra section on Friday is super helpful, especially with this course I think it's helpful to hear the material repeatedly and get as much exposure as possible. All the material was presented clearly and I found his help to be the reason I performed so well in the class.
